

AOK LED Street Light—oS Series Installation Guide

This procedure is designed as an installation aid. Skilled tradespeople that are familiar with general construction and electrical installation techniques should perform the installation. Licensed electricians should provide electrical installation connections. Installations and connections should be done in accordance with all national and local codes and permits. In no way is this document intended to construe warranty or fitness of use of the products described, nor is it intended to provide safety instruction for those installing the product.

WARNING

Before proceeding with installation or service maintenance of this product:

- Disconnect power to reduce electrical shock risk.
- Review the entire Installation Guide.
- Inspect this properly packaged product for any damage that may have occurred during transit.
- Verify product application complies with manufacturer design recommendations.
- Verify the availability of necessary tools and incidental material.
- Verify applicable code requirements. Field assembly and installation are subject to acceptance by local inspection authority.
- Appropriate safety equipment to be determined by end user, per applicable safety standards and precautions.

Step1: Open the button in the direction of Figure A, then open the top cover and support it. (Figure B)

Step2: Loosen the screw and thread the power cord through the pole to secure the pole to the hoop. (Figure C and D)

Step3: Use an Allen key to tighten the screws to secure the fixture. (Figure E and F)

Step4: Remove the support rod and put it in the lamp body, then close the top cover and button. (Figure G and H)

Step5: Wiring, connect the L,N,GND wires on the lamp to the corresponding L,N,GND cables on the pole. (Figure I and J)
